

RF Rubber Absorber

High Quality Rubber Absorbers are manufactured by doping with ferrous and non ferrous material.

Features

- a) Long product life
- b) Outdoor application
- c) Weather proof
- d) Washable with water
- e) Tested under IEEE 1128-1998 Standard
- f) Variable Thickness
- g) Available in 300MM x 300MM
- h) Reflectivity between -10Db to -18dB

Pyramidal or Conical Shaped Rubber Absorbers has wide range for different frequency of operation.
