

RF Over Fiber Solution

JV Micronics is a **trusted representative of Global FOXCOM**, a world leader in **RF over Fiber (RFoF) Solution** for **Satellite Communication, military communication, satellite TV distribution, and GPS/GNSS applications**. Our cutting-edge technology ensure **high-performance signal transmission**, minimal loss, and superior reliability across various industries.

Application & Expertise:

Satellite Communication- Secure and efficient RF signal transmission for satellite uplink and downlink.

Military Communication- Robust, interference-free connectivity for defense operations.

Satellite TV Distribution- Seamless RF Transport for broadcasters and telecom providers.

GPS/GNS Solutions- High-precision signal distribution for critical navigation applications.

Trusted by Leading Organization

Our RFoF Solutions are widely deployed by major industry leaders, including:

- Bharat Electronics Ltd (BEL)
- Electronics Corporation of India Ltd.
- Defence Research and Development Organization (DRDO)
- Bharti Airtel
- Zee TV, NDTV
- TV Today

These organization rely on **FOXCOM' s advanced satellite communication products** for both **domestic and international operations**, ensuring **unparalleled signal integrity, security, and efficiency**.

At **JV Micronics**, we r committed to delivering world-class RF over Fiber solutions, enabling seamless connectivity for mission-critical application.
